May 23, 2021

To the Postal Regulatory Commission:

I am not part of the Postal sector. I am a US citizen who believes in and relies on the Postal Services as was introduced to us by the great American, Benjamin Franklin and protected as written in the United States Constitution by and for We the People. I believe in Universal Service and do not want this great institution taken over by private enterprise. I want it to remain as it has been directed by the Constitution as part of our free speech, 1st Amendment rights AND not handed over to "private companies". Frankly, I do not trust this at all. Thanks to "Postmaster General" DeJoy, everyone knows why we had a mail slow down in delivery in the last quarters of 2020. To use these statistics from this period of time as a means to prove that the mail delivery did not meet its goals is frankly insulting. This proposal, a 10-year plan is designed to end our United States Postal Service and is another ploy to privatize our mail delivery services. BTW, we all know that deliveries by air are much faster than by truck. This appears to be another tactic to slow down mail deliveries and make it harder for citizens to receive our personal mail, bills, and medicines. Meeting deadline requirements for insurance premiums, mortgage payments, along with mailing in voting ballots interferes with my rights to conduct my personal business without interference by such a proposal. DO NOT PRIVATIZE OUR POSTAL SERVICE.

Sincerely,  
Donna Samatulski
